THE DARDANELLES.

A CIRCULAR NOTE ISSUED BY THE PORTE.

Bank of England Rate Raised—Italian Government and the Catholic Congress—Interests of German Catholics in America The Russian Jews.

CONSTANTINOPLE, Sept. 24.—A circular has been sent to the powers by the Porte in regard to the passage through the Dardanelles of several vessels of the Russian volunteer fleet. In this note the Porte says that for several years past vessels of the Russian volunteer fleet have been running between Odessa and Vladivostock, the port intended to be the eastern terminus of the trans-Siberian railway, and situated on the Sea of Japan. These ships, being under the commercial flag of Russia, were granted a free passage of the straits. It has been found, however, the note continues, that volunteer vessels were sometimes carrying soldiers, and these ships were detained, owing to a mistake as to their real character. The instructions of the Porte, given to the officers on duty at the Dardanelles, to prevent any further detention of vessels of the Russian volunteer fleet, have been wrongly construed by the newspaper press to be a violation of the existing treaties. The note quotes the instructions given to the Turkish officers on duty at the Dardanelles, the tenor of which has already been published, and concludes with the remark that no new measure has been adopted, and that the old ones continue in force.

CATHOLIC CONGRESS AT ROME.

LONDON, Sept. 24.—Although the Italian Government has withdrawn its opposition to the holding of a Catholic congress in Rome next week, it is said that the authorities will attempt to rigidly prevent any formal expression of opinion adverse to the unity of the Italian kingdom and in favor of the temporal power of the Pope. Italy has so strongly protested against such utterances in Spain, Germany and other countries that she cannot with any consistency permit similar language in the Italian capital. At first the Government was determined not to allow the congress to be held in Rome, but on second thought it was concluded that it would be better for Italian interests to have the meeting in Rome than in Vienna, Paris or Brussels, as the tone would probably be hostile to Italy if the congress should be within Italian jurisdiction. Notwithstanding Italian authority, however, the Congress is expected to speak plainly, if moderately, in favor of the restoration of the papal sovereignty, over a portion at least of the former states of the church. The Pope, it is said, will require this, whatever the result.

GERMAN CATHOLICS IN AMERICA.

A Berlin dispatch says that much interest is felt among the Catholic Germans regarding the united action taken by German Catholic clergymen in America to promote the welfare of themselves and their congregations. There is said to be a growing feeling among German Catholics that the American hierarchy ought to be more Germanic than it is, and that an inequitable preponderance of the higher dignitaries of the church in America is bestowed on Catholics of Celtic origin. The German Catholics in America have a powerful lever in Rome in the person of the Prussian minister, Dr. Schloezer, who has great influence with the Roman pontiff, and does not hesitate to use it in behalf of Germans at home and abroad. The Austrian ambassador to the Vatican, Count Revertera Salandva, has also made representations in behalf of the numerous Catholic emigrants from Austria, and it is said that the Pope will take advantage of future vacancies in the American episcopate to promote German priests to the higher rank.

RUSSIAN JEWS FOR THE STATES.

The Jewish Colonization Association, although formed but a few days, has already taken hold vigorously, and the object of settling the poor Russian Jews in the United States is to be pursued as rapidly as possible. The association has come to the conclusion to send nearly all the Jewish exiles to the United States, and to secure their landing by lawful means. The Jews will be settled as far as possible in agricultural colonies, but it is not expected that they will confine themselves to the country. The right to go into lawful business will be vindicated, if necessary, through legal proceedings. It is claimed that the United States has room enough for all the Jews that will emigrate from Russia and the opportunities for profitable business are not equalled in any other country. The association will therefore for the present confine itself wholly to sending Russan Jews to America and supporting them there. A St. Petersburg dispatch says that the Czar seriously thinks of sending the Jews in large batches to Siberia. They will not be deported as convicts but are to be presented with land and forbidden to return to Russia.

A TRICKY KING.

The young king of Spain has at length been permitted to learn something in regard to the duties which he owes his subjects. He has been placed in the care of a tutor, who is to impress on the royal mind the wisdom of not playing childish tricks on his attendants, and even on the high dignitaries of the court. The child is rather frail, and there is a general impression in Madrid that he will never see his "teens." He is at the same time precocious, with a dash of viciousness in his disposition that leads him to play very mean tricks indeed. Of this he is to be cured.

Bank of England Rate Goes Up.

LONDON, Sept. 4.—Bank of England discount rate, which since July 2nd has been 2½ per cent. was to-day raised to 3 per cent. The amount of bullion withdrawn from the Bank of England on balance yesterday, was £127,000, including £100,000 of United States gold sold by the bank. A representative of the associated press had an interview with Rothschild, Speyers, Lazard Bros., and other bankers, and they all agreed in their statements that further large shipments of gold are going to America. Rothschild dispatched an additional £100,000 yesterday.

Irish National Federation.

DUBLIN, Sept. 23.—The Irish National Federation convened in this city to-day. Justin McCarthy delivered an address, in which he claimed that the Federation has virtually won a victory over its anemies and those of Ireland. He also announced his intention of issuing an appeal to America for funds wherewith to continue the work in Ireland.

Grand Duchess Paul Dead.

LONDON, Sept. 24.—A St. Petersburg dispatch announces the death of Grand Duchess Paul. She was the wife of Grand Duke Paul Alexandria, youngest brother of the Czar, and was the eldest daughter of the King of Greece. The Grand Duchess was born in 1870 and was married in 1889.

Fergusson's Successor.

LONDON, Sept. 24.—The place of Parliamentary Under-Secretary of the Foreign Office, vacant through the promotion of Sir James Fergusson to be Postmaster-General, has been offered to Baron De Worms, member for Foxtetb, and at present Parliamentary Under-Secretary for the Colonial Office.

Struck by a Cyclone.

LONDON, Sept. 23.—The steamer Lepanto, Capt. Wise, from Antwerp to New York, was struck by a cyclone on the 7th inst., and thrown on her beam ends. Chief officer Yath and a seaman were washed overboard and drowned.

Stanley to Resign.

BERLIN, Sept. 23.—The object of Henry M. Stanley's visit to the King of the Belgians is to resign his position as governor of the Congo state.

REBELLION IN CHINA.

Disorder Increasing and the Situation Looking Bad.

SHANGHAI, Sept. 23.—The situation here is much worse. Disorders are increasing at Tchang, and this is the prelude to other disorders.

The valley of the Yang-Tse-Kiang is in rebellion. Wu Chang, the central seat of the viceroy, is ready to revolt, and Hankow and Chanking are likely to follow. The latter town is difficult to defend by warships, owing to the shallowness of the river.

Great excitement prevails. Strangers are fleeing from Tanghai, which is among the threatened towns, but measures of defence are being taken. Three ships of war are at Wu Chin, and the fleets are concentrating at Shanghai. Minister Le Maire, of France, has left for Pekin.

BASEBALL.

ANOTHER WAR INAUGURATED.

NEW YORK, Sept. 23—A special from Columbus to the Sun says: The National League has begun its raid on the American Association. At a late hour last night Pat Tebean, manager of the Clevelands, dropped into town and took under his wing McMahon, Van Haltern and Welch, of the Baltimore team. They made a night of it, and the consequence was Welch and McMahon were unable to play to-day. The men were together again this morning, and before Tebean left for home to-night he said he had signed all three men for next year. The three players were interviewed and refused to talk or deny the claims made by Tebean. Welch had not recovered from his indisposition when the Baltimore club left for the east last night.

THE NORTHWEST LEAGUE.

The fight for the penant of the Northwest league, between Portland and Spokane, Seattle and Tacoma being out of the fight, is becoming interesting. It looked for a while as if Portland would never catch Spokane, but the distance between the two is now narrowing down. On Tuesday Portland beat Spokane by 11 to 4 and Seattle and Tacoma played another close game viz. 1 to 2. The clubs now stand as follows: Spokane, 606 per cent. Portland, 581, Seattle, 447, Tacoma, 366.

THE TURF.

HORSES ARRIVING.

The first contingent of outside horses to take part in the fall meeting of the Victoria Jockey Club, arrived in the city yesterday. The steamer City of Kingston from the Sound brought over four horses, all runners. They are Red Dick and Cyclone, belonging to F. Sauer and Joe Wynne, and an Oregon stallion belonging to Jas. Irving. The horses have all been here before with the exception of the stallion. Geo. Black came down from Vancouver with a fine looking bay trotter, which is eligible for all the trotting races with the exception of the stallion race. J. M. R. Murphy and several other horses will arrive between now and Sunday from the mainland and the Sound. Among them will be fliers of all classes, but the the Victoria horsemen are not frightened as the past year has seen some good horses arrive in the city. Joe Sayward's Christmas, Tolmie's Midyard, horses from the Cloverdale Stock Farm, and others, will hold up the laurels of Victoria.

Forty Sheep Killed.

SAN FRANCISCO, Sept. 23.—One car broke away from a north bound freight train which had been divided near Baden this morning at the foot of the steep grade, and then struck the standing portion with such force that three cars were telescoped and 40 sheep killed.

A Dakota Town Scorched.

MINNEAPOLIS, Sept. 23.—A special to the journal from Bradley, S. D., says the whole of the business portion of the city is in ashes. Nine stores, one church, one hotel and one house were burned. Loss, $40,000.

AMERICAN DISPATCHES.

THE MISSOURI PACIFIC DIVIDEND PASSED.

Great Break in the Price—An Addition to the Cleveland Family Expected—The Watch Trust Cutting Prices—Fatal Train Wrecks.

NEW YORK, Sept. 24.—The Times says: It is expected that a meeting of the directors of the Missouri Pacific Railway will be held to-day, for the purpose of taking some action relative to the quarterly dividend which, according to custom, should have been declared a week ago. A story was current in Wall street yesterday that the dividend would be either passed or reduced from the usual one per cent, owing to Jay Gould's ultra conservatism. One effect of this story was to let the price of Missouri stock down 1½ points. It is a long time since any official statements of the earnings of the road were issued, a fact which has caused some comment. The Gould people, however, say that a statement will be submitted to the directors showing that the net earnings for the last three months were much larger than they were a year ago.

NEW YORK, Sept. 24.—It was officially announced this morning that the quarterly dividend of the Missouri Pacific will be passed. This announcement caused a break of 7½ points on Missouri Pacific stock during the morning. The whole stock market yielded under this influence.

Killed by a Train-Wrecker.

NOGALES, A.T., Sept. 23.—Four men were killed yesterday afternoon by an accident on the Imuris Mines Company's railway at the Cerro Blanco mines, 40 miles south of here. The railroad is of 20-inch gauge, and is 29 miles in length, running from Cerro Blanco station, on the Sonora Railway, to the mines up a very steep grade. On a down trip the engine was thrown from the track and four of the men on board were killed, including both engineer and fireman, who were scalded to death. A fifth man is not expected to survive. Small rocks placed on the track by some one, supposed to be a recent discharged Mexican employee, caused the engine to leave the track. The Mexican authorities are investigating the cause, and should proof be forthcoming the suspected parties will be taken to the scene of the accident and amid the debris shot to death.

The Cleveland Household.

NEW YORK, Sept. 24.—Ex-President Cleveland and his charming wife have returned to their city residence, 816 Madison avenue, having come from Buzzard's Bay on the steam yacht Oneida, which belongs to Mr. E. C. Benedict, one of the most intimate friends of the Cleveland family. This sudden return to the city is said to be on advice of the family physician of the Clevelands, who was called to Buzzard's Bay last week in anticipation of the interesting event which is expected to occur very soon. Society is much agitated, and although only the nearest of Mrs. Cleveland's friends are admitted to her presence, cards and other remembrances from her friends pour in steadily.

The Tennessee Convict War.

NASHVILLE, Tenn., Sept. 24.—E. B. Wade, State superintendent of prisons, has received a telegram asking for authority to employ 25 extra guards at Coal Creek, it being feared that an attempt will be made by miners to release the 13 convicts employed in the mines at that place. The request was granted. The Briceville stockade is fortined by six block houses made of logs and timber and filled with six inches of slate. They command every approach from hillside and valley. Sub-Lessee Goodwin expects an attempt to release the convicts from Jellico to Briceville before Friday morning.

California to the Front.

WASHINGTON, Sept. 23.—The Post to-day says: President Harrison has practically decided to give California a place in his cabinet. The gentleman to whom this honor will fall will probably be Mr. M. Estee, of San Francisco. Mr. Estee was chairman of the Chicago convention which nominated Harrison for the presidency. He was subsequently one of the delegates on the part of the United States at the pan-American congress. He is a lawyer of prominence, and in some respects is the foremost Republican on the Pacific coast.

A Vessel Wrecked.

NEW YORK, Sept. 23.—A Herald special from Panama via Galveston says the steamer California, Captain Pickthall, bound from Liverpool to Colon, was totally wrecked on Sept. 10, on the north side of Oruba, one of the Islands of the Dutch Antilles, near the coast of Venezuela. She was at the time en route from Curaca to Sanvonalis, Columbia. The passengers and crew, with the exception of second engineer, were saved. The mail was also rescued.

Oregon Hop Crop.

SALEM, Or., Sept. 22.—Hop picking in this section is practically over, and the most careful estimate places the crop at one-third less than the crop of 1890. It is thought there will not be more than 8000 bales in the entire state. Many yards were not picked at all on account of lice, and very few yards yielded an average crop. P. Levy, who early in the season picked all the leaves off his vines to starve the lice, is said to have had better success than those who sprayed.

The Watch Trust.

NEW YORK, Sept. 24.—A Chicago special to the Times says the decision of the Watch Trust to cut prices in order to rub the life blood from out of the business has resulted in a bitter feeling among retailers, upon whom the cut in prices on the eighteen size movement will fall most heavily. One firm has offered watches at 50 per cent. reduction, and a meeting of retailers has been called to refuse to handle trust goods in Cincinnati.

THE GREAT BOAT RACE.

O'Connor and Hanlan Take First and Second Places.

NEW WESTMINSTER, Sept. 24.—The professional single scull race resulted as follows: O'Connor won, Hanlan second, Dutch third, Stevenson fourth.

Captain Clancy's Removal.

PORT TOWNSEND, Sept 22.—A petition protesting against the removal of Port Captain Clancy, of the Union Pacific Puget Sound system, is being circulated here to-day and extensively signed by shippers. The petition will be forwarded to General Manager S. H. H. Clarke, at Omaha. Clancy's employees and friends are raising a purse to buy a $500 diamond locket to present to him.

An Ex-Governor's Suicide.

ST. LOUIS, Mo., Sept. 23.—News just received here states that ex-Governor Moorehouse, of Missouri, committed suicide at Marysville, Mo., at 9 o'clock this morning.

BORNE TO THE GRAVE.

The Funeral of the Late A. A. Green Largely Attended.

The funeral of the late A. A. Green, which took place this afternoon, showed the esteem in which the deceased was held by all classes. The handsome solid oak casket with gold and silver mountings was covered with flowers. In fact the floral offerings were the handsomest and most numerous that have been seen in Victoria. The procession, too, was very long, hundreds of friends of the deceased following the hearse from the late residence to the church, thence to Ross Bay cemetery, where all mortal remaining of one of Victoria's most charitable citizens was laid at rest.

The Reformed Episcopal Church, where the services were held, was draped in mourning, harmonizing with the sorrowful crowd that filled the sacred edifice. Right Rev. Bishop Cridge, assisted by Rev. Mr. Dobbs, performed the funeral service both at the church and the grave. The full choir was present.

In the first carriage were the principal mourners, Masters Ray, Frank and Bertie Green, sons of the deceased, F. H. Worlock, brother-in-law, and Master Ray Worlock. The second carriage contained George Garesche, J. B. Chantrell, E. B. Kilborne, and the third J. Coulthard, B. Goward, A. Haynes and D. Steele. In the other carriages were old timers and members of the Pioneer and other societies and many friends of the family.

The pallbearers were Mayor John Grant, M.P.P., Thomas Earle, M.P., Hon. D. W. Higgins, M.P.P., W. C. Ward, manager of the Bank of British Columbia; G. H. Burns, manager of the Bank of British North America; Henry Saunders, William Wilson and John Nicholles.

The following ladies and gentlemen sent the numerous bouquets that covered the hearse and casket: Dr. and Mrs. Milne, Mrs. Gray, Mrs. Kurtz, Mr. Saunders, Mr. Kelly, Mrs. McNeil, Mrs. Keast, Mrs. G. McQuade, Mrs. Wm. Wilson, Mrs Collart, Miss Spooner, Mrs. Arther Lewis, Mr. A. R. Milne, Mrs. J. D. Pemberton, Misses Pemberton, the Ladies' Committee Orphans' Home, Mr. Goffin, Mr. Bourchier, Miss Annie Monro, Mr. William Ward, Mrs. Herbert Kent, Messrs. G. and L. Garesche, Mrs. Ridgway Wilson, Mrs. D. Harris, Mrs. Chantrell, Mrs. Robert Ward, The Protestant Orphans, Mr. Charles Dickinson, Mrs. Hibben, Messrs. Redon and Hartnagle, Mr. Frank Richards, Mr. Bishop, Mr. D. Carr, Mrs. Nicholls, Dr. Duncan, Mrs. Eli Harrison, gentlemen in Garesche, Green & Co., Captain Clarke, Mrs. John Irving, Miss Cridge, Mrs. Laundy, Mrs Alex. Monro, Mrs. Henry Croft, Mrs. Higgins, Mrs. Harvey, Mrs. Robt. Irving, Mrs. Nuttall, Mrs. Percy Brown, Mr. Aaron Lewis, Mrs. Dunsmuir, Mr. and Mrs. Earle.

TAKING THE CENSUS.

A Systematic Way of Enumerating Victoria's Population.

A small army of clerks and enumerators are now at work collecting the data necessary to give a true and correct account of Victoria's population. Mr. R. T. Williams, the head of the matter, has devised and perfected a scheme whereby a mistake or an oversight is almost an impossibility.

The city is divided into 25 sections, to one of which is consigned one of the following gentlemen: Messrs. S. A. Bantley, F. Fletcher, P. T. Hebler, G. H. Keays, J. R. Adler, T. S. Burnes, jr., J. H. Gannon, R. Chadwick, T. T. Wilson, G. Grimerson, G. H. Rock, W. Smith, J. G. Ure, A. W. Von Rheim, W. S. Smith, C. R. Black, J. C. Brocklehurst, W. Wallis, O. McDonald, J. M. Garnock, A. H. Harman, A. G. Francis, C. Hunter, F. L. Neale and T. P. Sehl.

These enumerators are all sworn before a justice of the peace and sign a document pledging themselves to return a truthful account of the population in the district covered by them. Each one has a book with a map of that section of the city to be looked to by him attached. This book is so arranged and indexed that it is impossible to make a mistake, but to reduce the small possibility to a certainty, a staff of clerks in the office revise and check off the names gathered. All sheets are numbered and will be arranged alphabetically and kept on a file for future reference. Mr. Williams says he is bound to get correct returns, and states that so far the citizens have aided in every way the labors of the enumerators. The result will be officially announced at the next meeting of the board of aldermen.

HOPKINS-SEARLES WILL CASE.

Interesting Evidence Given by the Defendants in the Suit.

SALEM, Mass, Sept. 22.—The hearing in the Salem will case began in the probate court yesterday morning. William W. Dodge testified to drawing up the will of Mrs. Searles. It was read to her and she signed it, after declaring that it expressed her wishes. She was to all appearances of sound mind. Witness mentioned drawing another will, and the court on motion ordered it produced. Incidental to this request it was stated that Timothy Hopkins would not be conceded the right to appear as an adopted son. Burleigh proceeded to cross-examine the witness, his main points being the fact that the name of Timothy Hopkins was written in apparently different ink in the blank space left for the name. Dodge stated his impression that he left the space blank until he got to Methuen, as he was not sure whether there was a middle initial. He had been instructed to draw the will leaving all the property to Mr. Searles, and as his duty as a lawyer required, he inserted the section regarding the omission of the name of Timothy Hopkins. He called the special attention of Mrs. Searles to this, and told her he could modify it if she desired, but she stated it expressed her wishes, and it was so executed. Wm. M. Thornton, another witness to the will, corroborated the last witness. Cross-examination showed that the witness could not read a single word. William O. Norris, the third witness to the will, corroborated the previous witness as to the execution of the two wills. He also witnessed the will for Mrs. Searles.

Mr. Burleigh asked the executors to produce the will of Mary E. S. Searles, dated November, 1887. Judge Gorman ruled that the executors produce the will. Mr. Burleigh stated that the position of the contestants was:

First—There was not sufficient attestation of the will.

Second—The will had been procured by undue influence and fraud on the part of Edward W. Searles and some confederates.

Third—Testatrix was not of sound and disposing mind at the time the will was made.

Mr. Burleigh then called Edward W. Searles to the witness stand. In the afternoon session the examination of Searles was continued.

Searles testified that he first met Mrs. Hopkins in San Francisco in March, 1883, going to her house with a letter of introduction to look over her house; met her several times, going on excursions into the country twice with her and her daughter-in-law. He then detailed the acquaintance and visit to Mrs. Hopkins. The first proposition of marriage came from Mrs. Hopkins in New York, in the fall of 1883. He did not assent to it for a year, but in December, 1884, he entered into the proposition. He knew at the time that Mrs. Hopkins was born in 1820, and was twenty-one years his senior. He had never previously proposed marriage to any one; could not help knowing Mrs. Hopkins was a lady of large means. He delayed assent to proposition of marriage to give her a chance to be sure she was satisfied, and after he entertained it, delayed the marriage for three years. In the spring of 1886 he went to Florida as the guest of Mrs. Hopkins, in her private car. She was accompanied by Miss Cass, of Barrington. Witness from 1885 to 1877 was superintendent of building of Mrs. Hopkin's house at Great Barrington. He had understood that her son Timothy, in connection with the railroad people, managed her affairs; had been told by Mrs. Hopkins that Timothy had objected to the marriage, but cherished no ill-feeling towards him for it. The agreement of marriage was entered into in September, 1887, on witness' part because he greatly admired her. In reply to a question he said he married her for all she had, both love and money, but should never have married her for money alone. He did not know of the will made on the day of the marriage, November 8, 1887, until after her death, but did not think it was intentionally made behind his back. A marriage contract made at the same time was also put in, conveying from Mrs. Hopkins to T. E. Stillman, trustee, for the benefit of Edward E. Searles, after the marriage, the mansion in San Francisco; improved and unimproved land in Sacramento; land in Summit and Soda Springs, Cal.; redwood and timber lands in the Coast range; two parcels of quarry lands; the Great Barrington property, and four lots on Ninth street, New York. This contract was cancelled June 16, 1888.

This morning Mr. Searles continued under examination. Witness and his wife went to Europe on November 23rd, 1887, on their wedding tour. Previous to starting on the trip Mrs. Searles secured funds of about $100,000. The trip was for about six months, and included witness, his wife, lady's maid, Martha Epping and Rev. Dr. Clapp, his wife and daughter. They did not meet Dr. Slade or any Spiritualists on that trip. He knew Searles Bolles, who he believed called himself a harmony scholar, or Christian Scientist, but he never knew of his attending Mrs. Searles either before or after their marriage. They returned from Europe in June, 1888. Timothy Hopkins managed Mrs. Searles' affairs up to the time of the partnership. After the marriage, while in Europe, witness' wife had made an offer to him of certain deeds at Nice. The suggestion of the copartnership came from Mrs. Searles. The articles of co-partnership were here put in between Mary F. Searles, Edward F. Searles, Thos. E. Stillman and Thomas Hubbard, to manage all the property of Searles and pay the income to the parties, Mr. and Mrs. Searles to receive 45 per cent. each and Stillman and Hubbard each 5 per cent. Mrs. Hopkins became acquainted with Stillman and Hubbard about a year before the marriage, and on October 31st 1887 Mr. Stillman was given a power of a torney from Mrs. Searles and Mrs. Hopkins. There was also a general power of attorney from Mrs. Hopkins to Stillman and Hubbard, dated Nov. 4, 1887. This was the same date as the marriage, with a supplementary certification after the marriage. This was never reported, to the knowledge of witness. Witness knew of a transfer of stock standing in her name to the firm five days before her death. Witness saw the attorneys in New York five days before, and told them her condition was critical. He did not learn that the transfer had been made until after her death. He could not say what the stocks were or their value. witness, share of the firm was 45 per cent., but he drew both his and his wife's income and at her request used the money to pay the general household expenses.

The Itata Case.

NEW YORK, Sept. 23.—Chas. B. Flint has received a cablegram cancelling the power of attorney by which he was authorized to act for the owners of the Itata. Flint's consularship, conferred by the Balmacedan government of Chili, is also revoked.

LOS ANGELES, Cal., Sept. 23.—United States Attorney Cole, acting under instructions from Washington, has dismissed the second libel against the Itata. Mr. Cole states that the action taken by him was in entire accord with the government's handling of the case. The district attorney has a right to institute proceedings for violation of laws of the United States, especially in cases of emergency, subject to the control of the Law Department at Washington. He telegraphed the Attorney-General, asking his views, and receiving no reply, on Saturday deemed it advisable to file a libel. The marshall went to San Diego on Sunday with the process in his pocket to await instructions from here and Washington. He afterwards received instructions not to serve the process, and did not. Mr. Cole believes it to be the law that a vessel escaping from the United States is liable for the expense of bringing her back.

Why It is Popular.

Because it has proven its absolute merit over and over again, because it has an unequalled record of cures, because its business is conducted in a thoroughly honest manner, and because it combines economy and strength, being the only medicine of which "100 Doses One Dollar" is true—these strong points have made Hood's Sarsaparilla the most successful medicine of the day.

BOARD OF ALDERMEN.

Business Done at the Regular Weekly Meeting Last Night.

The regular weekly meeting of the Board of Aldermen was held at the City Hall last evening. Present: Mayor Grant, in the chair, and Ald. Coughlin, McKillican, Smith, Richards, Robertson, Holland and Renouf. Routine work being completed,

Ald. Holland rose to a question of privilege. He stated that he had been accused of seconding the motion, at a recent meeting, of the acceptance of the water commissioner's resignation. Ald. Holland wished to deny this imputation. He did not second that motion.

COMMUNICATIONS.

From D. W. Aden, complaining of the bad state of Ontario street.—Referred to committee.

From W. W. Northcott, assessor, making the following report on the assessment roll: Value of land, $12,936,318; improvements, $4,626,850; total, $17,563,548. Report adopted.

GENTLEMEN,—You have held, through your city clerk, a sale of the Deluge engine house, but the figure not having reached your reserve the sale was not ratified and you are now advertising the sale of corporation gravel pits to be conducted by the assessor. I am satisfied that better results can be obtained if the corporation or your officers employ one whose profession is that of an auctioneer, the same as you would engage a lawyer to do your legal work or an engineer to do your street and sewer work. I, therefore, make you the following proposition, viz: I will attend to all details in placing such property as the corporation has for sale, for a net commission of 5 per cent., to be handed to the hon. treasurer of the Provincial Royal Jubilee Hospital. I might say that this institution has now 51 patients and the directors are much hampered for funds. I, therefore, make you this offer because it will in the first place help the hospital, and, secondly, because the enhanced prices obtained, will more than equal the commission named. Yours faithfully,

JOSHUA DAVIES.

Some objection was raised to this, as it was contended that the by-law only gave power to the assessor to sell the property. It was the opinion of Mayor Grant that the council had power to engage the services of an expert in the business.

On being put to the vote the motion carried.

From R. Ward & Co., calling attention to the fact that a sewer on Wharf street had burst and was flooding their cellar.—Reported by the chairman of the street committee that the matter was being attended to.

From Drake, Jackson & Helmcken, in re a former communication.—Tabled.

From Drake, Jackson & Helmcken, regarding the case of James Keehan, injured on the streets.—Tabled.

From W. Hogells, offering to move a house for the city.—Referred to committee.

From Chas. Kent, city treasurer, drawing attention to the delay in settling the question of the tax on the Union and Victoria clubs.—City clerk instructed to communicate with the city barristers.

From Bodwell & Irving, re grade by-law.—Referred to city surveyor.

From the Immigration, Investment and Improvement Company of British Columbia, Limited:

VICTORIA, B.C., Sept. 22, 1891.

To His Worship the Mayor and the Board of Aldermen of the City of Victoria:

GENTLEMEN,—This company desires to see British Columbia represented at the coming World's Columbian Exposition at Chicago in 1893 in a fitting manner, and that in being so represented, she may receive her share of the benefits arising from said Exposition, in the acquisition of population, capital, labor, improvements and knowledge.

Nearly all the States and Territories of the United States, and nearly all the nations of the earth, have made preparations and appropriations to insure proper representation and especially to have buildings of their own on the Exposition grounds, to be used as headquarters for their people, for the offices of their commissioners, for special exhibits, for the distribution of advertising matter and the dissemination of information about their respective resources and localities.

In view of the fact that lumber constitutes one of the principal industries of British Columbia, we propose to solicit donations and subscriptions for a "British Columbia Building," which is to be built of the different British Columbia native woods and other native materials necessary for the construction, to be designed by a resident architect, built by British Columbia labor, furnished by British Columbia industry, and could first be erected here, then sent in sections to Chicago, and there re-erected on the Exposition grounds, and surrounded by British Columbia shrubbery, plants, and minerals, etc., serve its purpose.

We propose to collect the expenses necessary for this object by soliciting donations of lumber from the different lumber mills in British Columbia, and other materials from different sources and also by popular subscriptions, and we respectfully request your honorable body to encourage this undertaking by passing a resolution of endorsement, and by requesting the councils of other cities and municipalities, the different boards of trade and various societies and corporations and individuals generally to co-operate with this company for the object named, the success of which will be for the benefit and credit of the whole province. Very respectfully yours,

The Immigration, Investment & Improvement Co., Limited. D. W. MONROW, Sec'y pro tem.

It was moved that the communication be received and that this council heartily approves of the project as set forth in the communication of the Immigration, Investment & Improvement Company of British Columbia, and that this council would respectfully suggest to the municipal councils of Vancouver, New Westminster and Nanaimo, also the boards of trade of the province be asked to endorse the same, and that copies of this resolution accompanied by a copy of the communication be forwarded to the various bodies.

From Engineer Mohun, pointing out that under certain conditions unavoidable damage would be done to the main sewers in making house connections, unless during the construction of the mains, steps be taken to obviate the risk. There are many situations in the city in which it is necessary to lay the mains in a narrow trench, cut in the solid rock. The junctions are laid at the same time as the mains. "Under such circumstances," reads the report, "it will be obvious that whenever it is required hereafter to make house connections with main sewers so placed, the excavating for the trench for these connections will necessitate blasting within a few inches of the main sewer, which would, in all probacility, receive more or less serious damage, and it is recommended that, where necessary, side excavations, to receive hereafter smaller pipes, should be made and carried, say five feet, from the sewer, before the mains are laid."—Referred to sewerage committee.

From R. Finlayson, regarding complaint re over assessment.—Referred to assessor.

From the B. C. Agricultural Association, extending an invitation to the board to be present at the opening of the annual show.

From W. W. B. Magiunis, asking that a by-law authorizing the expenditure of $50,000 for the establishment of a university be submitted to the ratepayers.—Filed and acknowledged.

From the B. C. District Telegraph & Delivery Co., Ltd., asking the board to aid in connecting their system with the fire alarm system.—Referred to fire wardens for report.

From Lieut.-Col. Holmes, inclosing telegram from Ottawa, re drill shed site, said telegram stating that as the city had promised a site for the shed, the department required the title before letting the contract for building the shed.—Referred to the finance committee.

From Fairall & Co, complaining of an excessive charge for city water.—Referred to committee. It was shown that the water used by Mr. Fairall was not supplied by the system owned by the city.

PETITIONS.

From ten residents on Richmond avenue, asking for a water supply there—Referred to water commissioner.

NEW BYLAWS.

Ald. Renouf, asked leave to introduce a by-law to amend the Bank Credit By-law 1891.—Leave granted; by-law read a first time

REPORTS.

From the finance committee recommending that $250 be paid to the provincial exhibition, and asking further time to report on some other matters.—Adopted.

From B. Bailey, concerning complaints of residents on Henry street of bad drainage, and recommending that a drain be placed there—Adopted.

From the street committee recommending several improvements on the streets.—Adopted.

PUBLIC MARKET RULES.

On motion the city clerk was instructed to correspond with the corporations of eastern cities regarding rules and regulations of public markets.

UNIVERSITY BY-LAW.

Ald. Richards gave notice that he should at the next meeting of the board ask leave to introduce a by-law to raise $50,000 for the establishment of a university.

Council then rose, it being 11:10 p. m.

Timely Wisdom.

A QUARTER OF A CENTURY AGO

There settled in Baker county, Oregon, near what is now Baker City, a man who has since become identified with the resources and development of that country. This man is no other than Mr. John Stewart, one of the wealthiest and most influential citizens in the county. In a recent letter he says: "I had been suffering from pains in my back and general kidney complaint for some time, and had used many remedies without any but temporary relief. The pains in my back had become so severe that I was prevented from attending to my work and could not move about without the use of a cane. Hearing through a friend, of the wonderful cures effected by Oregon Kidney Tea, I was induced to try a box, and from that very first dose I found instant relief, and before using half the contents of the box the pains in my back entirely disappeared. I have every faith in the virtues of the Oregon Kidney Tea, and can conscientiously recommend it to my friends. I would not be without it for anything."

Oregon Kidney Tea cures backache, incontinence of urine, brick dust sediment, burning or painful sensation while urinating, and all affections of the kidney or urinary organs of either sex.

I FEEL BUOYANT

"Am happy to say that results so far are as satisfactory as I could expect, indeed much more so than I did expect. I am enjoying excellent health, appetite good, sleep sweet and refreshing, gaining flesh; am less nervous than I have been for years; feel bright and bouyant * * * It is almost miraculous, making a young man out of one of seventy, for that is just what your treatment is doing for me. I wish the community to know in as modest a way as we can get at it."

THE TURF.

The stallion Allerton trotted a mile in 2.09¼ at Independence, Iowa, on Monday, thus putting an end to all disputes as to the stallion championship.

The very fact of His Highness packing up 130 lbs. and defeating a large field of high class youngsters, is in itself a memorable result; but the way in which he did it, fighting it out inch by inch in a desperate finish, finally securing the verdict through sheer bulldog pluck, stamps him beyond comparison the two-year-old of the season and one well worthy to rank with the crack Potomac that captured the event last year. The story of Huron's disqualification is told everywhere in the report of the race; and the fact of the colt running second adds a good deal more spice to the controversy, as it will now be necessary for Mr. Corrigan, his owner, to go into the courts and prove his claim to $5,000, the amount due the second horse. The crowd was the largest ever seen at this famous track, close on a hundred bookmakers were doing business, and an enormous amount of money was staked on the result.

HONEYCOMBED WITH CORRUPTION.

The Toronto Week points out that there is a considerable scandal involved in the expenditures of the Indian Department at Ottawa. The accounts of the department show that the country has been charged for beer and cigars, luxuries which are not supposed to be supplied to the aborigines. It would be interesting to know how said luxuries were disposed of. It further appears that between 1883 and 1889 the amount expended on agricultural implements under one treaty was $218,615, and under three others, embracting a population of 12,000, there was spent for the same purpose $201,000. During the same period the total amount spent for agricultural implements was more than $2,000,000. It is a safe conclusion that this money was not all, or nearly all, legitimately expended, and it will be necessary to ascertain who were the Senecals and the Araoldis of the Indian Department. The truth is that in every department of the government where purchases were made for the public service or money expended on public works, there has been peculation and corruption of the meanest kind. This was due to the methods of government pursued by Sir John Macdonald and by his lieutenants under his tutelage, and it is not rational to expect that with these men in office, there will be much change for the better. Canada's only chance for pure administration of her affairs is to make a complete change in her rulers.

THE STATE ELECTIONS.

Our American cousins are busily canvassing the chances of the contending parties in the coming State elections, the general idea being that the results of November 3 will indicate the outcome of next year's presidential contest. In most cases McKinleyism is now the great issue, as it will be next year, and all are watching nervously for signs which will show either a continuance or an abatement of the anti-taxtion wave of 1890. The great contests will be in New York and Ohio, where state officers and legislatures are to be elected. In the former state the hope of the Republicans rests chiefly on the divisions among their opponents. They count on Hill knifing Flower, the Democratic candidate for Governor, as he knifed Cleveland in 1888, and they also expect to gain by the quarrel between the Tammany and County Democracy factions of New York city. The Democrats, on the other hand, make light of their party troubles and are confident of holding the state. In Ohio the redoubtable McKinley himself stands as the Republican standard-bearer, his opponent being Campbell, the present Democratic governor. The Republicans are almost certain of success, for Ohio has nearly always been with them, and they cannot afford to let it be taken from them this year. Their defeat in Ohio would be a certain presage of defeat in the greater contest of 1892. Besides Ohio and New York, state officers and legislatures are to be elected in Maryland, Massachusetts and Iowa. The first is expected to stay Democratic and the second Republican, but there will be a lively fight in Iowa. Mississippi, Virginia and New Jersey elect state legislatures, and in Pennsylvania and Nebraska minor state officers are to be chosen. In these latter contests there is less interest taken than in New York and Ohio, where the battle will be fierce.

EDITORIAL NOTES.

Harper's Weekly has a fine full page picture of the great glacier of the Selkirks, a scene familiar to travelers by the C. P. R. Curiously enough, the Weekly locates the glacier in "the Selkirks, Manitoba."

H. M. Stanley, it appears, has gone to Brussels to give back into the hands of King Leopold his commission as Governor of the Congo State. The great explorer feels that he is getting into that stage of life when lecturing on civilized platforms is much more agreeable than braving the hardships and discomforts of the wilds of Africa.

The Ottawa and Hull mill hands who are now on strike were receiving the very handsome wage of $6.50 per week for working 11¾ hours per day. They struck for $7 per week and a working day of 10 hours. Mr. Foster about the same time was telling the workingmen of Canada what a good thing they had under the beautiful N. P. The mill hands were very inconsiderate indeed.

A learned gentleman of the law in San Francisco has discovered that it is not wise to presume upon a lady lawyer's inability to appreciate legal points. In a case in that city recently Mr. Barclay Henley, a prominent member of the Bar, had for his legal opponent Mrs. Clara Foltz. Mr. Henley applied for a change of venue, and in doing so made a mistake, either through carelessness or through ignorance. Mrs. Foltz quickly exposed his error, so Mr. Henley had the mortification of seeing his application dismissed and himself worsted by a woman.

Montreal Star: There are ways and and other ways of doing things. For instance, in the purchase of property for government uses. In Philadelphia a new mint is to be built, and the Government has kept the site selected a profound secret, for fear the owners will put an exorbitant price on it, if they find the government is the prospective purchaser. This, it has been observed, is putting a low estimate on the patriotism of these persons, but it is warranted by experience. In Canada we take another way when a site is selected for a government building. Before the public is aware that a building is even intended, the site is chosen, a private hint is then given to a convenient friend, the property is purchased at ordinary valuation. Then the building is put in the estimates, the chosen ground bought at a big advance and the speculator and his secret prompter enjoy the profits of their superior knowledge, prudence and foresight. Canadians can give their neighbors some pointers on the matter of how to buy property for the government.

WHARF AND WAVE.

Jottings of Interest to Marine Men Concisely Compiled.

The steamer Taichow, lumber laden, is to leave Burrard Inlet for China to-day.

Local steamers are busy just now freight carrying from the farming districts on the Fraser.

The bark Serica will finish loading her cargo of salmon for the United Kingdom by Monday.

The Indian schooner Sierra was brought around from Cloyoquot to-day. Her master has filed a claim for wages due, and seeks to recover.

Wounded by a Rooster.

It seems that the game cock is dangerous to other than feathered enemies. David Parker, of Los Angeles, Cal., has been oddly poisoned by a rooster's bite. Mr. Parker surprised the poultry yard just as a fight to death had been finished. Picking up one of the expiring cocks, he received a bite on the tip of a finger which led to blood poisoning.

FEIGNED HYSTERICS.

How a Woman Made Money by Getting Hysterical Fits in Depots.

"What's the matter with the lady?" inquired a Pittsburgh Dispatch reporter of a physician who was working with a woman at the Union depot yesterday. She was lying on one of the benches and apparently had had a fainting spell.

"Oh, she has had a hysterical fit," he replied carelessly. "She is all right, and nobody need be worried about her. This woman may be all right, but I have my doubts about it. I had hard work trying to open her eyelids, and she evidently held them. It is an old gag, you know, of some women, to faint in public places, where they can excite sympathy and have a collection taken. I know of one who used to have hysterical spells with great regularity at hotels and depots. Invariably money was collected for her benefit, and she walked off with the stuff, only to faint away again in another public place. She always had a pathetic tale to tell, and it took the police a good while before they tumbled to her swindling game. It is an easy matter for a woman to become hysterical, and they can bring on the fit when they feel like it."

Two-Dollar Counterfeits.

The ways of the wicked are most always found out at the last. The counterfeiters of the United States two-dollar silver certificate forgot to turn the letters two after photographing the bill and making it otherwise so like the genuine note that it deceived the best experts for awhile. The letters on the counterfeit read backward. One L [illegible] the top of the figure 2, and are so minute as to require a magnifying glass to be visible.

"Don't Care to Eat."

It is with the greatest confidence that Hood's Sarsaparilla is recommended for loss of appetite, indigestion, sick headache, and similar troubles. This medicine gently tones the stomach, assists digestion, and makes one "real hungry." Persons in delicate health, after taking Hood's Sarsaparilla a few days, find themselves longing for and eating the plainest food with unexpected relish.

BRAZIL'S NEW IMMIGRANTS.

Large Numbers Are Prosperous and Contented.

There are satisfactory reports from Rio de Janeiro about the condition of the one hundred thousand Italian, Polish, German and Hebrew immigrants who have settled in Brazil within the last two or three years. They are exceedingly well treated by the authorities and the new republic, and by the native citizens of localities in which they may be pleased to take up their abode. Those of them who desire land have no difficulty in procuring it; and those who seek employment in the mines, or in trades, or at unskilled labor do not need to remain idle.

Such of the immigrants as have taken up the work of cultivating the soil, says the Chicago Tribune, find that they can raise many kinds of fruits and other natural products which they never saw in Europe; that the fertility of the soil surpasses the reports they had heard of it, and that the climate in many regions of the republic is entirely satisfactory to them. They find also that free public schools have been established by the central and provisional governments, and that a system of universal education will soon be adopted.

So favorable are the accounts that the immigrants have sent back to the countries whence they came that the Brazilian authorities look for a vast increase of immigration during the coming year, especially from Italy and Prussian Poland. The great landlords in the last-named country are alarmed by the flight of thousands of their laborers to Brazil, but there is no likelihood of the success of their efforts to prevent it. Italy can spare several millions of her people, who are sure to improve their condition by settlement in Brazil.

Furthermore, it is known that the rich Jew, Baron Hirsch, has offered to transport half a million Russian Jews to any part of the South American continent, and the probability is that Brazil will be the country chosen for them. The Brazilian government is doing all that it can do under the circumstances to encourage immigration, but it will do much more as soon as its affairs are in perfect order, so that the funds needed for the work can be appropriated.

SLANG AND ITS DERIVATIONS.

Facts Relating to the Origin of Certain Words and Phrases.

Within the present century (probably) a good many Hebrew words have come into English slang through the medium of "Yiddish," e. g., showful, (low Hebrew, "shaphel") "gonoph," a thief, (Hebrew, "gannabh," pronounced "gonnof" by Polish Jews; Mr. Leland writes incorrectly "ganef.") The greater part says the Anthenaeum, of the vocabulary of slang, however, is purely of English origin, consisting of humorously-metaphorical uses of ordinary words, the metaphor being often so far-fetched as to be of the nature of a riddle. Slang words of this type have often passed into standard use; the ordinary French words for "head," "cheek," "leg," for instance, represent the vulgar Latin words for "pot," "porringer," and "knee-can."

Of course, a humorous metaphorical expression may acquire a considerable degree of proverbial currency without thereby becoming slang. It passes into slang when the original point of the joke is no longer distinctly remembered, and the expression continues to be used merely as an eccentric substitute for the recognized term. At a later stage sometimes the word or phrase has become so general that all its grotesque associations have disappeared, and it becomes a permanent addition to the resources of the literary language. A good example of these three stages of development may be found in the history of the word "budget," as denoting the financial proposals of the chancellor of the exchequer. In the reign of George II. the word was used with conscious allusion to the celebrated pamphlet which ridiculed Sir R. Walpole as a conjurer, opening his "budget" or "bag of tricks." Afterward it must, for a time, have been current as slang; but, as it supplied a want, it was soon taken into the ordinary vocabulary, and at the present time a chancellor of the exchequer would, as a matter of course, speak of his own "budget" without any thought of the uncomplimentary sense which the word originally expressed.

Want Rapid Transit.

A company is being formed across the Sound to build and operate a single railroad between Seattle and Tacoma. It is to be of the kind known as the "bicycle road," and the cars are to make at least 125 miles per hour speed.

Change of Engineers.

Chief Engineer James McArthur, long in the C.P.N. Co.'s employ and an old resident here, has resigned his position as engineer of the steamer R. P. Rithet. The vacant place has been filled by Mr. Samuel Mackay, lately of the steamer Thistle.

For One Week.

Wish Him Retained.

A lengthy petition, signed by nearly all the business men of Port Townsend, has been sent to the heads of the Union Pacific, asking that Captain Clancey be retained as port captain. A $500 diamond locket is to be presented to the captain by the employees of the company.

The U.P. Steamers.

The steamer Olympian has been placed on the Tacoma-Whatcom route in place of the Sehome. The latter boat is to be thoroughly overhauled, which it will take about a month to do. When the Olympian is relieved she will go around to Portland to have her boilers and machinery put in order.

Firemen Meet To-night.

The members of the fire department meet at the Tiger house to-night to make final arrangements for decorations and the reception of visiting teams. All matters have been brought to a state of perfection, and it is not likely any hitch will occur in the affair, as the boys have all entered heartily into the matter.

Corporation Gravel Pits.

Street Commissioner Lynn has a force of men hard at work leveling and grading the corporation gravel pits, so as to be ready for bids at the sale soon to take place. No doubt good prices will be given for the property, which only a few years ago was considered "out in the country," but which is now almost centrally located.

Lepers Sent Back.

On Tuesday two Chinese lepers, who arrived at Vancouver several days ago en route to China per the Empress of Japan, but were detained on account of their condition, were sent back in a special car to New York, whence they came, in bond. During their stay at Vancouver they were locked up and carefully guarded by the police in an old building near the station. They were locked in the car with sufficient provisions to last until they reach their destination, where they will be looked after by the United States authorities.

Tobogganing Without Snow.

The toboggan slide which is being built at Mount Tolmie will be a rare novelty for those who have never yet had the pleasure of enjoying a slide in the east, and those who have slid in the east will enjoy the novelty of tobogganing without the discomforts of snow or cold. The slide at Mount Tolmie is built of timber with three tracks in which are fitted hardwood strips which are greased. On these strips the toboggans slide, and as the friction is almost nil, a terrific speed must be the result, as the incline is quite steep. The length of the slide, which has already been prepared is nearly 500 feet.

Royal Arch Masonry.

The regular annual convocation of Columbia Royal Arch Chapter, No. 120, was held yesterday afternoon at 3 o'clock, when the following officers were elected for the ensuing year: W. J. Quinlan, 1st Principal Z; P. F. Richardson, 2nd Principal H; A. Stewart, 3rd principal J; E. Langley, Scribe E; B. S. Oddy, Scribe N; J. L. Stamford, 1st Soujourner; A. Rosta, 2nd Soujourner; C. D. Mason, 3rd Soujourner; T. Cunliff, Janitor. The officers were installed at 7:30 p m. by Most Excellent Companion H. McKeown, First Past Principal. At 9:30 o'clock the members adjourned to a banquet prepared by Mr. F. Garland at the Balmoral.

Part of Yates Street Closed.

The Mayor and Board of Aldermen have extended all the aid possible to the Firemen's Tournament committee, and to further make the affair a success, have closed Yates street between Douglas and Quadra, on the north side, so that the street can be put in a first-class condition for the races. Street Commissioner Lynn has a gang of men on levelling and smoothing the ground, and to-morrow Jumbo will roll the same into hardness. Enough of the street has been left open to allow traffic, and no inconvenience will be given to the public. It is stated that the track will be the best ever prepared for a tournament and fast time may be looked for.

C. P. R. and Seattle.

A number of Canadian Pacific railway officials will be in the city to-morrow. The opening of the Seattle & Montana line will give the Canadian Pacific direct access to this city, and it is believed that the Canadian Pacific and Great Northern will build a depot. It is even said that the business of these officials here, in addition to the usual purposes of such visits, is to approve a site said to have been selected by President Hill during his recent visit here. It is known that the Canadian Pacific will send nearly all its Seattle freight over the Seattle & Montana, instead of unloading and transferring it to its boats as at present, and it is believed that it will join the Great Northern in erecting a depot and freight house.—Seattle Press-Times.

An Artistic Gem.

A very handsome water color view of Mount Tolmie, painted by Mr. T. Bamford, before the progressive ideas of real estate agents had encroached on the native loveliness of the place, is on exhibition. From an artistic standpoint the picture is a gem, and it will be valuable in a few years, after the place, then a veritable wildwood and park, is built over and covered with homes.

In the Cells.

James Hayward was arrested to-day on a charge of assaulting an Indian, and locked up in the cells pending trial to-morrow.

Frank Fay, a seal hunter, came to the cells about noon and gave himself up, stating that he understood there was a warrant out for his arrest, charging him with stealing $40 from the master of the schooner Oscar and Hattie. Fay denies all knowledge of the affair and presses for an early enquiry.

Good Music Assured.

The Firemen's Ball Committee have engaged Prof. Walcott's band for the occasion, and good music is an assured fact. Prof. Walcott's band will also supply music for the tournament, and will arrive here Sunday afternoon. The ball committee are hard at work making all arrangements for the event, and a first class affair will no doubt mark their efforts. The committee are not so anxious to make money as they are to make the affair a success.

Police Court Notes.

Police Magistrate Belyea, with his unvarying punctuality, took his seat in the court room just as the clock marked the hour of 10 this morning. Three Indians and one white were in the dock. One charged with being drunk, was fined $5; one charged with assault was also fined $5, and two charged with being in possession of an intoxicant were fined $25. The white man was charged with taking whiskey into the Indian reserve. He pleaded not guilty, but the case was pretty clearly proved, and under the law he was ordered to pay $50 fine, in default two months in jail.

An Indian Dance.

There is a party of siwashes in the city at present that are truly enterprising. They returned from the hop fields a few days ago without any money and how to get to their homes in the north is what is bothering them as they did not bring their canoes down with them. Something had to be done and if the scheme they are now trying to carry through could be straightened out it might help them materially. They propose to get up an Indian dancing exhibition, charging a small admission. They have been trying to hire a warehouse for the exhibition but as yet have not been successful.

Vernon vs. The Times.

The trial of this action was begun this morning in the Supreme Court, Sir M. B. Begbie presiding. Mr. Charles Wilson and Mr. E. V. Bodwell appeared for the plaintiff, and Mr. A. L. Belyea and Thornton Fell for the defendant. The following jury was struck: J. B. Lovell, foreman, John Teague, W. B. McKillican, Geo. Jaques, R. J. Russell, Joseph Sears, P. T. Johnson and David Spencer. Mr. Bodwell opened the case for Mr. Vernon, and after the Attorney-General, Theo. Davie, had been called to prove publication, Mr. Vernon was put in the box, and at the time of going to press was still under examination. As there are about a dozen witnesses to be examined, and a large number of letters and documents are to be examined and studied, it is probable the case will occupy several days.

"The Dazzler."

A jolly farce-comedy by Thomas Addison, entitled "The Dazzler," will be the attraction at the Victoria Theatre on Monday and Tuesday evenings, September 28 and 29. The event promises to be a notable one in the list of this season's attractions, as, aside from the popularity it achieved last season, and the pronounced metropolitan hit made during several engagements in the principal New York theatres, it will this season have, as the bright particular feature, bonnie Kate Castleton heading Cosgrove & Grant's brilliant array of comedians in the interpreting of the merry skit. Two other important artists who have been selected, among the others, to surround the queen of the comedy stage, are: Joseph Ott, whose inimitable eccentric comedy work is fast placing him in the front rank of comedians, and Lena Merville, piquant, pretty and petite, a good singer, and a dancer of exceeding grace and agility. "The Dazzler" will form one of the most pleasing of entertainments.

FOR EVER AND FOR AYE.

WEDDING OF MR. T. R. SMITH AND MISS FLORENCE H. KING.

Christ Church Cathedral the Scene of a Very Fashionable Gathering to Witness the Nuptials of One of Victoria's Leading Gentlemen.

Scarcely have the bells of Christ Church Cathedral ceased pealing for wedding chimes of yesterday's nuptials before their services are called into requisition to-day to publish the joyous news of another and an equally fashionable event, whereby one of the most popular and prominent gentlemen of Victoria is allied to a lady of a leading family. The gentleman is Mr. Thomas Robert Smith, assistant commissioner of that grand old institution, the Honorable Hudson's Bay Company, and a gentleman who has moved energetically in several good public works. Mr. Smith is deservedly popular, not merely among his personal, or more intimate friends, but with all who have to meet him in his official capacity. He is at all times the same genial, courteous, obliging and businesslike. It was no wonder then that a very large number of his friends assembled at Christ Church Cathedral to-day "to see him off." He is one of the most active workers in the church's interests, and the choir, under the able leadership of Mr. Herbert Kent, along with the organist, Mr. George Pauline, added their efforts in making this happy ceremony still more joyous. His fine presence and dignified bearing made Mr. Smith an ideal bridegroom. The lady to whom he is allied is sister-in-law of Mr. Robert Ward, J.P., and comes of a leading English family, her father being the late Capt. Edward Hammond King, of Her Majesty's 59th regiment.

The cathedral never looked more lovely than in the morning sun, the heat of the day not having yet made itself felt. A soft perfume arose from the floral wealth disposed around the chancel, the beautifully blended colors of the flowers lending a pretty effect to the tasteful costumes of the bridal party.

The service at the Cathedral which was conducted by the Bishop of Columbia assisted by Rev. Arthur Beanlands, B.A., was fully choral. The clergy and choir met the bridal party at the western end of the cathedral and proceeded to the chancel singing "The Voice That Breathed o'er Eden." The bride leaning on the arm of her brother-in-law, Mr. Robert Ward, J.P., was dressed in ivory white ducherre silk, court train, and medici collar, trimmed with *chiffon*, caught up with bunches of orange blossoms and jessamine. She wore a girdle of orange blossoms and lillies, and lillies of the valley, a wreath of orange blossoms and a net veil, fastened by a diamond star, presented by the groom, as also a gold locket and chain worn around the neck.

Master Victor Essendrue Ward, a chubby little boy of four summers in a Jack tar suit carried the bride's train. The bridesmaids, three in number, Miss Eveline and Miss Constance Ward, little neices of the bride, and Miss Eberts, performed their functions prettily and gracefully, the first one dressed in apricot liberty silk, and the others in *eau de nil* bengaline, while they each wore net veils and jessamine wreaths, white silk sashes and shoes. Each little lady carried "slipper" baskets filled with white flowers and wore gold brooch pins set with pearls the gift of the groom. Mr. Douglas Dick was "best man." After the customary visit to the vestry, the party left the church amid the strains of Mendelssohn's Wedding March, Mr. George Pauline presiding at the organ; the belfry also gave out its merry greetings, and adjourning to The Laurels, the residence of Mr. Robert Ward, a large number of invited guests were entertained at breakfast.

The bride and her husband afterwards left for their residence, Etherwold, en route for California, where it is intended to pass the honeymoon.

Among the many lovely presents of which the bride was the recipient, were from Mrs. Richards, pair of handsome carvers in case; Mrs. Dunsmuir, broach, moonstones and pearls; Mrs. Wm. C. Ward, gold bracelet set in pearls; Mrs. Ward, gold bangle; the Groom, diamond star, gold locket and chain; Mrs. Simson (California) pair of oil paintings; Mr. and Mrs. Robert Ward, cheque; Mr. Henry Coles Stahlschmidt, gold watch; Misses Eveline and Constance Ward, silver sugar sifter; Master Victor Ward, silver butter knife; Mr. Douglas Drummond Dick, silver salver and sugar bowl; Rev. Arthur Beanlands, "Darby and Joan," steel engraving; Cyril and Horace Ward, silver sugar tongs; Miss Richards, photograph; Miss Cartlige, silver napkin rings and grape scissors; Mrs. M. T. Johnson, urn, rich Japanese ware; Mr. Justice and Mrs. Crease, fish slice and fork; Mrs. J. D. Pemberton, Japanese vase; Chief Justice Sir Matthew B. Begbie, check; The Lord Bishop of Columbia, travelling clock; Rev. Wastie and Mrs. Green, salver, Indian ware; Mr. A. W. Jones, combined dinner gong and inkstand; Mr. and Mrs. Innes, case of silver spoons; Kate Gray, silver pickle jar; Dora Irwin, Japanese writing desk; Clerks of the western department Hudson's Bay Company, silver tankard, stand and goblet; Mrs. James Brady, salver; Mrs. Roderick Finlayson, dozen "five o'clock tea" silver spoons; Mr. A. H. Bridgeman, handsome vase; Mrs. O'Reilly, gold bracelet set in pearls, emeralds and rubies; Hon. P. O'Reilly, gold brooch set in rubies, emeralds and pearls; Sir Joseph and Lady Trutch, amber bracelet and necklet and pair of silver bracelets; Mr. Cecil W. Ward, silver button hook; Mrs. and Miss Harvey, Japanese bracket; Mr. Hedges, H. B. Co., silver breakfast cruet; Mrs. Shaw, bronze flower bracket; Tootsie Ward, ivory fan; Mr. and Mrs. C. W. Ringler-Thomson, cheque; Mr. and Mrs. Rithet, gold brooch with solitaire diamonds.

A large number of presents have to be added to this list when they arrive.

Rooms for Visitors.

Mrs. Johnson, proprietress of the New York Hotel, has very generously placed at the disposal of the committee on accomodations a comfortable office near the entrance to the New York. Here a clerk will be stationed on Monday with a register containing a list of those who have rooms to let to visitors. Other information will also be given, such as hack rates, directions to places of interest about the city, etc. To better draw the attention of visitors to the place, a large sign will be stretched across the street which will not fail to be seen by all. The arrangements made by the secretary of the committee are perfected so that there will be little or no danger of any of the visitors to the city being unaccommodated with a place to lodge. The officers of the agricultural show and firemen's tournament have been bound to do away with the evil of overcharging which has been complained of in the past, as all rooms recommended by their clerk will have the price stated at the time of rental. Nearly all classes can be provided for at rates varying from fifty cents to one dollar and a half per night.

A Party of Notables.

Sir Donald. A. Smith, E. S. Clouston, manager of the Bank of Montreal, and a party of five will arrive from the Mainland this evening and put up at the Driard, where rooms have been reserved. Sir Donald and Mr. Clouston are on the coast in the interest of the Bank of Montreal and other companies they are interested in.

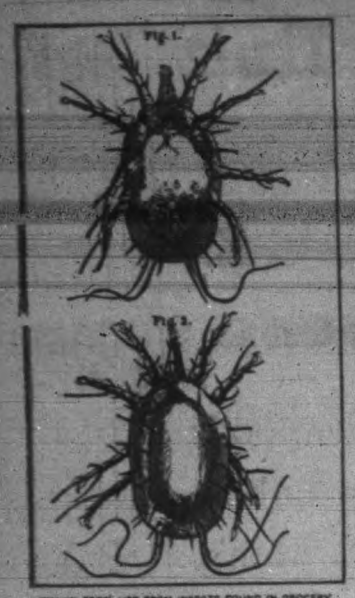
CHINESE - SUGARS; - WHAT - IT - IS - WE - MAY - BE - EATING!



DRAWN FROM LIFE FROM INSECTS FOUND IN GROCERY

In view of the introduction to the Province recently of considerable quantities of Chinese Sugars, it may be as well that the Public should be informed, on the very highest possible authority, of the danger that may be attendant upon their use.

Professor Cameron, Public Analyst, Dublin, a gentleman who has made it his special business to examine all kinds of Foreign Sugars, Refined and other, says that certain kinds of them should never be used. He states that they contain great numbers of DISGUSTING INSECTS, which produce a DISGUSTING DISEASE. Their shape is very accurately shown in the accompanying cut, which is magnified two hundred diameters. Figure 1 is the under side, and Figure 2 the upper. The Professor's description is as follows:—

"This insect ('the Acarus Sacchari') is a formidably organized, exceedingly lively, and decidedly ugly little animal. From its oval-shaped body stretches forth a proboscis terminating in a kind of scissors, with which it seizes its food. Its organs of locomotion consist of eight legs, each jointed and furnished at its extremity with a hook. In the Sugar its movements from one place to another are necessarily very slow, but when placed on a perfectly clean and dry surface, it moves along with great rapidity." He adds that the number of "Acari' found in Unrefined Sugar is "sometimes exceedingly great, and in no instance is the article quite free from either the insects or their eggs." He further says:—"The Acari Sacchari" do not occur in Refined Sugar of any quality, because they cannot pass through the charcoal filters of the Refinery, and because Refined Sugar does not contain any nitrogenous substance upon which they can feed."

COOLIE - MADE - AND - ALL - UNREFINED - SUGARS - SHOULD - NEVER - BE - USED!

Besides its being impossible for Canadian Labor to compete with Coolie Labor, rice fed and under paid, it is well known that Eastern Countries have always been the breeding ground for leprosy and all other loathsome and horrible human diseases, and hand labor there is so cheap that there is no inducement to employ machinery. Home Refined Sugar, on the contrary, is never touched by the human hand from the moment it reaches the refiner until it leaves him a perfectly safe and purified article.

Use, therefore, Only Home Refined Sugars; They Are Absolutely Unadulterated, Pure and Cheap.

NANAIMO NEWS.

Things Looking Brighter—Texada Island Boom—A Miner's Suit.

NANAIMO, Sept. 23.—The shipping in the harbor is again showing a bright aspect, and the chances are that it will remain good for some time to come, as there are several fresh vessels engaged between Nanaimo and San Francisco. It was generally rumored a few days ago that there was to be two months' of idleness, which statement was reported to have come from head quarters, and in consequence everything had a tendency to become very flat. It is pleasant to notice, however, that building operations are still being carried on, and matters in Nanaimo promise a busy time.

TEXADA AGAIN.

During the past week quite a number of prospectors have left the city for Texada Island, where they have staked out claims with the full intention of prospecting them. The faith in the island has not appeared to have diminished in the minds of the majority of the citizens, and it is the general belief that if sufficient capital is expended in developing certain claims, they will prove to be as rich as any in the country. An excursion leaves the city next Sunday for the island, and many will take the opportunity of viewing the future gold field of New Vancouver Island.

SUMMONSES ISSUED.

Messrs. Tully Boyce, Keith, M.P.P., A. Wilson and others have been served with summonses to appear before Mr. J. P. Planta to answer a charge of conspiracy, instituted by Mr. W. Pyper on behalf of the dissatisfied miners. In all probability after the charge has been gone into a change of venue will be asked for. Since the labor demonstration took place very little has been heard about the breach, and it was thought matters would soon be amicably settled, but this last action is calculated to do more harm than good.

LITTLE HAPPENINGS.

The postal department is enumerating all the mail that passes through the post office during the present week.

The concert and dance given in St. Paul's Institute last evening was a great success, and a most enjoyable time was spent by everybody.

Her Face Her Fortune.

Is commonly said of famous beauties. She who uses with artistic taste Wisdom's Famous Robertine has fortune in the possessing of a complexion to which nothing but the blush of the rose or the freshness of the lily can be compared. This preparation is just what it is claimed to be—the most delightful toilet article and only perfect beautifier known. Read the testimonials from famous artists, celebrated chemists and eminent physicians. D. E. Campbell, agent.

MEMORANDUM OF ASSOCIATION
Under the "Companies Act, 1890."

The Immigration, Investment and Improvement Company of British Columbia (Limited Liability).

WE, THE UNDERSIGNED, John Grant, Joshua Holland, Henry Alexander Munn, William H. Bone, John Nicholles, of the City of Victoria, in the Province of British Columbia, Paul Pferdner, of Chicago, State of Illinois, U.S.A., desire to form a company under the "Companies Act, 1890."

1. The name of the Company shall be "The Immigration, Investment and Improvement Company of British Columbia (Limited Liability."

2. The principal place of business of the Company shall be at the City of Victoria, in the Province of British Columbia.

3. The capital stock of the Company shall be five hundred thousand dollars ($500,000) divided into five thousand (5000) shares of one hundred dollars ($100) each.

4. The time of the existence of the Company shall be fifty (50) years.

5. Five (5) trustees shall manage the concerns of the Company for the first three months, and their names are:—John Grant, Joshua Holland, Henry Alexander Munn, William H. Bone, and Paul Pferdner.

6. The objects for which the Company is formed are:—

(a.) To organize and manage excursion parties to the World's Columbian Exposition at Chicago in 1893, and to and from other places and points of interest, to make contracts with railways, transportation and other companies and persons for carrying, transportation, care, accommodation and board of such excursion parties and their baggage, and for the insurance against loss by accident of the individual members of the same.

(b.) To promote and secure the representation of the natural and manufactured products of the Province of British Columbia at the World's Columbian Exposition at Chicago in 1893, and at such other expositions and fairs as the Company may deem advisable.

(c.) To carry on business as capitalists, financiers, concessionaires, brokers, commission agents and merchants, and to undertake and carry on and execute all kinds of financial, commercial, trading and other operations, and to carry on any other business which may seem to the Company capable of being conveniently carried on in connection with any of these objects, or calculated directly or indirectly to enhance the value of, or facilitate the realization of, or render profitable any of the Company's property or rights.

(d.) To guarantee or become liable for payment of money, or for the performance of any obligations, and generally to transact all kinds of guarantee business, and also all kinds of trust and agency business.

(e.) To buy, lease, exchange or otherwise acquire any lands or other property, corporeal or incorporeal rights, franchises or privileges, and to sell, lease or otherwise deal with the same in any lawful way the Company may deem advisable.

(f.) To establish agencies of the Company wherever the Company may deem it advisable, in order to extend and render profitable the business of the Company.

In testimony whereof the parties hereto have made, signed and acknowledged this memorandum of association (in duplicate) at the City of Victoria, in the Province of British Columbia, this 15th day of September, A.D. 1891.

Made, signed and acknowledged by the said John Grant, Joshua Holland, Henry Alexander Munn, William H. Bone, John Nicholles, and Paul Pferdner, in the presence of D. W. Morrow, Notary Public, B.C.

Thos. Anderson has been appointed to act as collector, truant officer and street lamp lighter of the village of Tilbury Center at a salary of $100 per year.

President Van Horne arrived in Montreal early yesterday from Vancouver, in company with Lord Mount Stephen and other gentlemen. The Canadian Pacific president speaks in glowing terms of all he saw on his trip.

In Kingston, Ont., on Sunday evening, Rev. D. McCormick preached a political sermon, in which he instituted a comparison between the publicans under the Roman Government 1900 years ago and the civil servants at Ottawa of the present day.

The prospects for an amicable settlement of the strike among the Ottawa mill hands seems more remote every day. The employers will not accept the compromise arrangement recently submitted. Nothing transpired, either at Chaudiere or in Hull, last evening, to change the aspect of the strike.

About 12 miles east of Hamilton, in a smash-up between two freights, Cecil R. Winter, a Toronto brakeman, suffered a compound fracture of his right knee and his left foot was badly cut. Winter was taken to Toronto hospital where his right leg was amputated. The doctors think they can save the left foot.

The friends of Rev. E. P. Crawford, rector of the Church of the Ascension, Hamilton, met recently and it is understood that the rector will not suffer financially if he continues as pastor another year. Mr. Crawford's incumbency is objected to by the anti-ritualists of the congregation, who are trying to "freeze him out."

J. M. Williams & Co., of Hamilton, are about to remove to Dundas, having leased the Dundas stove foundry for five years, with the privilege of purchasing when the term expires. Mr. Mowat, the owner, is repairing the premises preparatory to their occupation. They will employ 50 hands to start with in making stoves and furnaces.

Patrick Sheady, Wm. Leader and W. Turnbull received their third and last flogging at the Central prison, Toronto, yesterday, for indecent assault on Elizabeth Richardson, of Guelph. They were given ten lashes each, having been originally sentenced to thirty. Sheady and Turnbull groaned and shrieked throughout their punishment, but Leader took his without a murmur.

The adjustment of affairs between Harris and Massey in furtherance of the scheme of amalgamating the two agricultural implement firms, is practically completed. The company is now advertising under the joint name of Massey-Harris Company, limited, and will concentrate the main office in Toronto. How far the union will affect Brantford is not yet known. The works there will be continued in full force if manufacturing can be done more cheaply than in Toronto.

The Montreal exhibition is a great success, the attendance having averaged about 60,000 a day. The British Columbia exhibit has a space with the C. P.R., and is a great drawing card. The press speaks highly of the exhibit, which has been visited by immense crowds. The model of the steamer Empress of Japan, in the British Columbia court, costing several thousand dollars, is beautiful. There are a number of large paintings and views of British Columbia. The exhibition closes to-morrow.

On Friday morning Mr. L. Turner, of Montreal, arrived in the town and during the day drove north with the intention of seeing the country as far north as Edmonton. He is acting for a large number of families in Germany who propose coming to Canada to settle and who are desirous of deciding in what part of the country they shall locate before coming so that there shall be as little expense as possible with their removal from the old country to their farms in the new. Mr. Turner undertook the commission and has for the past two months been visiting various points in Manitoba and the Northwest. When he returns from Edmonton he will have completed his work and will go back to Montreal from where he will send his report. This is his first trip west of Winnipeg and he is much impressed with the possibilities of the country.—Calgary Tribune.

King of Medicines

A Cure "Almost Miraculous."

"When I was 14 years of age I had a severe attack of rheumatism, and after I recovered had to go on crutches. A year later, scrofula, in the form of white swellings, appeared on various parts of my body, and for 11 years I was an invalid, being confined to my bed 6 years. In that time ten or eleven sores appeared and broke, causing me great pain and suffering. I feared I never should get well.

"Early in 1886 I went to Chicago to visit a sister, but was confined to my bed most of the time I was there. In July I read a book, 'A Day with a Circus,' in which were statements of cures by Hood's Sarsaparilla. I was so impressed with the success of this medicine that I decided to try it. To my great gratification the sores soon decreased, and I began to feel better and in a short time I was up and out of doors. I continued to take Hood's Sarsaparilla for about a year, when, having used six bottles, I had become so fully released from the disease that I went to work for the Flint & Walling Mfg. Co., and since then

HAVE NOT LOST A SINGLE DAY

on account of sickness. I believe the disease is expelled from my system, I always feel well, am in good spirits and have a good appetite. I am now 27 years of age and can walk as well as any one, except that one limb is a little shorter than the other, owing to the loss of bone, and the sores formerly on my right leg. To my friends my recovery seems almost miraculous, and I think Hood's Sarsaparilla is the king of medicines." WILLIAM A. LEHR, 9 N. Railroad St., Kendallville, Ind.

COAL

The New Vancouver Coal Mining & Land Co., L'd.

(FORMERLY THE VANCOUVER COAL CO.)

ARE THE LARGEST COAL PRODUCERS ON THE PACIFIC COAST.

THE NANAIMO COAL

(Used principally for Gas and Domestic Purposes).

THE SOUTH FIELD COAL

(Steam Fuel).

THE NEW WELLINGTON COAL

House and Steam Coal are mined by this Company only.

THE "NANAIMO" COAL gives a large percentage of Gas, a high Illuminating Power unequalled by any other bituminous Gas Coal the world, and a superior quality of Coke.

THE "SOUTH FIELD" COAL is now used by all the Leading Steamship Lines on the Pacific.

THE "NEW WELLINGTON" COAL, which was introduced early in the present year, has already become a favorite fuel for domestic purposes. It is a clean, hard coal, makes a bright and cheerful fire, and its lasting qualities make it the most economical fuel in the market.

The several Mines of the Company are connected with their Wharves at Nanaimo and Departure Bay, where ships of the largest tonnage loaded at all states of the tide. Special dispatch is given to Mail and Ocean steamers.

IMPORTANT NOTICE.

TO OUR PATRONS—The Victoria Electric Company purpose immediately entering upon an extension of their works by the erection of a new and commodious plant house and plant of large capacity, capable of accommodating the ever-increasing demand.

The new station will be located on Constance street, where, aided by superior facilities for the production of Light, Power, etc., combined with large output, they will be able to offer even better service, at a very materially reduced cost to consumers.

Pending the completion of these works, every effort will be made to continue the past reliable service, and to deal with patrons fairly. Any believing, however, that they have a grievance are invited to have the difficulty adjusted by presentation to the undersigned.
